# Brainstorming & Idea Prioritization Template

Date: 15 March 2024  Team ID: SWTID-2026-5883

**Project Name: Pocket Smart AI: Your Smart Budget & Recommendation Assistant**

Maximum Marks: 3 Marks

## *Step 1: Brainstorm and Idea Listing*

Each team member lists out ideas related to the Pocket Smart AI project without judging them at this stage.

| S.No | Team Member | Idea / Suggestion | Category | Group No. |
|---|---|---|---|---|
| 1 | Jashvini.K | Gemini-powered smart budget analysis and personalized recommendations based on user spending information. | AI / Gemini Integration | 1 |
| 2 | Indhumathi.D | Backend service for processing user financial inputs, managing data, and connecting the application with Gemini. | Backend / API | 2 |
| 3 | Jayapriya Rajkumar | Simple and user-friendly dashboard for entering expenses, viewing budget information, and receiving recommendations. | Frontend / UI | 3 |
| 4 | Jonal.A | Personalized budgeting and recommendation logic to help users organize spending and identify suitable suggestions. | Budget / Recommendation | 4 |
| 5 | Kavibharathi.K | Testing, validation, error handling, and evaluation of AI-generated recommendations and application output. | Testing / Quality | 5 |

## *Step 2: Idea Prioritization*

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

| Group No. | Final Idea | Feasibility (High/Medium/Low) | Importance (High/Medium/Low) | Priority Selected (Yes/No) |
|---|---|---|---|---|
| 1 | Gemini-powered smart budget analysis and personalized recommendations. | High | High | Yes |
| 2 | Backend/API for financial data processing and Gemini communication. | High | High | Yes |
| 3 | User-friendly dashboard for expenses, budget information, and recommendations. | High | High | Yes |
| 4 | Personalized budgeting and recommendation logic. | Medium | High | Yes |
| 5 | Testing and validation of application and AI-generated output. | High | High | Yes |

## *Team Work Allocation*

| S.No | Team Member | Assigned Work |
|---|---|---|
| 1 | Jashvini.K | Gemini model integration, prompt design, AI-based budget analysis, and personalized recommendation generation. |
| 2 | Indhumathi.D | Backend/API development, user financial data processing, and communication between the application and Gemini. |
| 3 | Jayapriya Rajkumar | Frontend/UI development, dashboard design, expense input screens, and presentation of budget recommendations. |
| 4 | Jonal.A | Budgeting logic, recommendation rules, spending organization, and personalization of suggestions. |

| | | |
|---|---|---|
| 5 | Kavibharathi.K | Testing, validation, error handling, output quality checks, and project documentation. |
