Customer Journey Map

Date	01 October 2026
Team ID	SWTID-2026-5883
Project Name	Pocket Smart AI: Your Smart Budget & Recommendation Assistant
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 Discover & Set Up	Stage 2 Budget & Track	Stage 3 Recommend & Decide
Actions ***What does the customer do?***	• Open Pocket Smart AI • Create profile • Enter income and goals	• Set budget limits • Record expenses • Review spending	• View recommendations • Compare options • Choose an action
Touchpoint ***What part of the service do they interact with?***	• Welcome screen • Profile setup • Income/goal form	• Budget dashboard • Expense tracker • Category summaries	• AI recommendation screen • Alerts/suggestions • Decision support view
Customer Thought ***What is the customer thinking?***	• Can this understand my needs? • Is setup simple? • Will it help me budget?	• Where is my money going? • Am I within budget? • What can I reduce?	• Is this recommendation useful? • Which option suits my budget? • Can I trust the suggestion?
Customer Feeling ***What is the customer feeling?***	• Curious • Hopeful • Slightly uncertain	• Focused • Aware • Motivated	• Confident • Supported • Ready to decide

Process Ownership & Improvement Opportunities

Project: Pocket Smart AI: Your Smart Budget & Recommendation Assistant

Phase of Journey	Stage 1 Discover & Set Up	Stage 2 Budget & Track	Stage 3 Recommend & Decide
Process Ownership ***Who is in the lead on this?***	**Jashvini.K** User Research & Requirements	**Indhumathi.D** UI/UX & Budget Flow	**Jayapriya Rajkumar** AI Recommendation & Personalization
Opportunities ***How can we improve this stage?***	• Keep onboarding short • Use clear financial goals • Make required inputs easy to understand	• Make expense entry quick • Use simple categories • Show budget status clearly	• Give personalized suggestions • Explain why a recommendation appears • Allow users to adjust preferences

Team Work Allocation — Name Order

No.	Team Member	Assigned Work	Primary Responsibility
1	**Jashvini.K**	User Research & Requirements	Study user spending needs, budgeting problems, and required features.
2	**Indhumathi.D**	UI/UX & Budget Flow	Design onboarding, budget setup, expense-entry, and recommendation screens.
3	**Jayapriya Rajkumar**	AI Recommendation & Personalization	Develop recommendation logic and personalize suggestions from user inputs.
4	**Jonal.A**	Backend, Data & Integration	Handle data flow, expense storage, APIs, and integration between modules.
5	**Kavibharathi.K**	Testing, Evaluation & Documentation	Test the assistant, evaluate recommendations, record results, and prepare documentation.

Supporting responsibilities: Jonal.A leads backend, data, expense storage, and system integration across all stages. Kavibharathi.K leads testing, recommendation evaluation, documentation, and final quality checks across all stages.

Project focus: Pocket Smart AI helps users understand spending, manage budgets, and receive personalized recommendations based on their financial inputs and preferences.
